

Materials of Construction

All wetted parts are in 316 stainless steel. Electropolished finish is available as an optional extra.

Motor Specifications

TEFV and ATEX approved Flameproof motors are available as standard. Inverter rated, stainless steel and other motors are available as optional extras.

Mounting

Stainless steel flange fitting available as standard. Clamp-on fitting optional for smaller machines.

Single mechanical shaft sealing

A single carbon/ceramic mechanical shaft seal with viton elastomers is standard. Other face materials and elastomers available as an optional extra.

Double mechanical shaft sealing

Double mechanical shaft seals are required when processing products that are abrasive, sticky or viscous or when the system is under vacuum. Sealant flushing systems can be supplied as an optional extra.

Cleaning

Clean-In-Place design. Simple, easy to clean construction.

Operating Pressure

From full vacuum up to 150psi (10 Bar). Higher pressure units are available on request.

Ultra Hygienic Model

Available with features including:

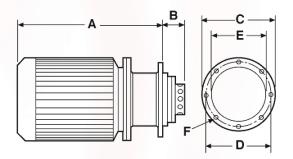

- Crevice-free construction
- Hygienic metal bellows shaft seal
- Electropolished finish

Diagrams & Dimensions

Larger models available upon request. All dimensions are in millimetres.

Model	kW	RPM	TEFV A	EExD A	В	С	D	E	F
